To make a jellyroll, you need the following supplies:

- two blocks of contrasting color

Roll the contrasting colors out into sheets.

Stack the darker sheet on top of the lighter sheet. To get a nice, tight roll with no hole in the middle, leave about 1/4 inch of lighter sheet sticking out.

Press the 1/4 of lighter sheet onto itself to start the roll.

Continue to roll until you have a log.

Cut into the log to reveal the jellyroll.
